pany, which has erected a million gal-  
lon one at Star Junction.

While there is general complaint in  
the West Virginia field over the car  
shortage the coke companies in the  
Connellsville region are being supplied  
with all that they need. Only one com-  
pany last week complained of a car  
shortage and this was due to a mishap  
on the Monongahela railroad. All  
agents claim that they have a suffi-  
ciency of coke cars and that all needs  
can be promptly and regularly sup-  
plied, besides the number is being  
constantly added to.

Large shipments of smelter coke  
were expected for this season but only  
two small cargoes left Baltimore last  
week. The smelters appear to have  
slowed down somewhat and it is be-  
lieved that they have good stocks on  
hand.

Stock coke is not plentiful in the re-  
gion, although the Frick company is  
carrying several hundred cars upon  
their yards. However the corporation  
is buying coke from independent op-  
erators.

A general improvement in trade is  
noted in the stores at the various  
works. Many store managers declare  
that last Saturday night was the best  
night for business that they had in  
two years. This condition has brought  
about heavy buying of commodities be-  
sides has given employment to hun-  
dreds throughout the region. In many  
places they are already preparing for  
the holidays. The present outlook is  
for continued and increasing business.

George B. Irvin, Secretary of the  
Coke Producers' Association, reports  
as follows:

Our reports of the coke oven opera-  
tions for the week ending October 16,  
shows:

Number of available ovens in  
the two districts.....38,674  
Number in blast.....34,232  
Number out of blast.....4,442  
Increase in active ovens over  
preceding week.....350

During the week the number of ovens  
was increased by the completion and  
putting in operation of 40 at Herbert  
and 19 at Tower Hill.  
Additional ovens were added at the  
following plants: 25 at Fairbanks; 50  
at Union; 12 at Adair; 14 at Burchinal;  
32 at East Connellsville; 40 at Herbert;  
20 at Junction; 40 at Marshallville; 5 at  
Richhill; 20 at Husted; 8 at Starlight;  
17 at Sterling; 19 at Tower Hill, and  
14 at Virginia. A few were put out at  
several works.

The estimated production of coke  
for week was 33,946 tons, an increase  
of 4,338 tons over the week before.

# MR. AND MRS. P. R. WEIMER HAVE CLOSE CALL IN RUNAWAY.

## Horse Frightens at Automobile on National Pike and Plunges Over Embankment.

### THE MACHINE DID NOT TARRY

Mr. Weimer Sustained Sprained Shoulder While His Wife Was Painfully Scratched and Bruised—Work's Automobile to the Rescue.

Mr. and Mrs. P. R. Weimer of town had a thrilling runaway experience near Uniontown Sunday evening, one which might have resulted in serious injury if not death to both of them but for the timely presence of a stake alongside the National Pike which stopped the downward tumble of the horse and rig in which they were driving.

The two had been visiting Mrs. Weimer's parents at Farmington and began the return along towards dark. When about four miles beyond Uniontown, not far from the Turkey's Nest, an automobile came up from behind and frightened the horse. The animal kicked viciously and got its hind legs over the shafts. It then veered to one side of the road and plunged over the embankment, dragging the buggy and its occupants after it.

The buggy struck the post beside the road, after tumbling down about six feet. This threw Mrs. Weimer out while Mr. Weimer jumped from the vehicle. The horse broke loose and rolled on down the hill.

The chauffeur of the automobile stopped long enough to enquire if the occupants of the buggy had been hurt and then drove on, leaving them alone in the darkness. Mr. Weimer saw the number of the machine and learned it was "3184." Mrs. Weimer sustained a few painful scratches, while her husband had his shoulder sprained.

John Work of Connelville happened along in his car a few minutes later and took Mrs. Weimer to Uniontown, returning with assistance. The horse was driven into Uniontown and left at the livery stable where it had been hired. Mr. and Mrs. Weimer then came to Connelville by trolley.

## SIMPSON FREE.

Always Claimed He Was Innocent of Irwin Robbery.

Robert Simpson, who was convicted jointly with John Conlin, alias "Farmer John," for an attempt to rob a bank at Irwin, in the fall of 1902, and was sentenced to 10 years in the Western Penitentiary, was released from that institution Thursday morning. Simpson was taken to the prison in February, 1903, and, as he was a model prisoner during his incarceration, his sentence was shortened almost four years. He always claimed he was innocent of the robbery.

"Farmer John" was pardoned after he had served two years, when it was proved through his attorney, John Marron, that he was not with the gang of safe blowers at Irwin.

## OPEN AIR PRAISE OF CHRISTIANS.

Largest Communion Service  
World Has Ever Known  
at Pittsburgh.

### BASEBALL FIELD IS THE SCENE

Thousands Upon Thousands Receive the Sacrament in Grand Service and Sing Hymns—It Was Entirely Conducted by Signals.

PITTSBURGH, Oct. 15.—"Nearer My God to Thee," swelling from 25,000 voices on Forbes Field yesterday, floated over the hills of Schenley park and rolled against the gray building of Carnegie Institute, where they were echoed over the most populous section of Pittsburgh. Twenty-five thousand voices lifted up in religious fervor, where but little more than a week ago, 10,000 more were cheering on to victory the favorite contestants in the national game. This marked the most remarkable meeting of religious folk that has ever been recorded. Twenty-five thousand persons gathered in an open field, to partake of the communion of the church and hold under the blue dome of heaven that service of the church that is usually held within the sanctuary.

The entire service was conducted by Dr. Tharp, who gave his directions to the congregation, leaders and deacons, with a signal flag, and when with a flourish he announced the opening, the great congregation arose. W. E. M. Harkleman of Indianapolis mounted several wooden boxes and directed the singing. Eight choirs stepped forward and played in unison, furnished the only music for the service. Upon the signal being given by Dr. Tharp, the elders stepped to the tables, removed the coverings, and when this had been completed prayer was recited in concert. The bread was broken by the elders and handed to the deacons, who filed through the aisles of their respective sections, one on either side. Starting from the lower row of seats in each tier, they worked up to the back rows, where they awaited the next signal upon which they marched back to the communion table. Here the deacons were served by the elders, and by the same method the wine was passed. During the communion there was absolute silence.

An offering was taken by the same officers. This was for the fund for ministerial relief. When it was announced, Dr. Tharp, with a megaphone, enjoined the congregation to give, not pennies and nickels, but dollars and ten dollars. "Let us make it \$10,000 today for these underpaid ministers of God," he said.

After the service it took two hours and a half to count the money. There was much currency and not a small number of bills, the whole reaching \$12,626.52.

UNIONTOWN, Oct. 16.—Henry Jackson, badly wanted by the Fayette county authorities, has bobbed up in Fairmont, where he was arrested yesterday for slugging Thomas Jordan. Jackson here will try to bring Jackson back to Uniontown unless the West Virginia authorities desire to hold him.

Some weeks ago, and not long after Jackson was released from the penitentiary, he is alleged to have robbed Joseph King, an aged man, of \$15, and the same night cut loose and cleaned out the laundry establishment and Chinese iron room of Lee Sing, on Peter street.

## A RAILROAD MAN TAKES HIS LIFE.

**F. R. Price, Southwest Flagman, Shoots Himself In Head at Greensburg.**

### WELL KNOWN IN CONNELLSVILLE

**Suicide Committed in Bed at His Own Home at an Early Hour This Morning—Young Wife is Prostrated Over Husband's Deed.**

Alone in his bedroom, F. R. Price, flagman on the Southwest branch local freight running between Greensburg and Fairchance, shot and killed himself at his home in Greensburg Tuesday. The suicide occurred about 2 o'clock and the young wife and little daughter are almost distracted over the deed of husband and father. What Price's motive in taking his own life could have been is not known.

Price was about 35 years of age. He has lived in the old Turner building, corner of Depot and Otterman streets, Greensburg, for the past two months. He also owned the pool room and had a man employed to run it. He was of a very quiet disposition and never had much to say. He was at work yesterday as usual on his run and arrived home last night from Fairchance at 5 o'clock. He was about during the evening and retired about the usual time. He slept in a room at the front of the house by himself, and his wife and little daughter and the hired girl occupied a room adjoining. The shot awoke them a few minutes before he came to find him lying. Two roomers, Richard Davis and C. E. Haas, who were in the house asleep, were called and Dr. Wentz, who lives next door, was also called. The bullet took effect in the right temple. Price must have died instantly. He bled freely and the blood clothing which was scarcely disturbed was saturated.

The regular meet-ings of the association will hereafter be held quarterly instead of monthly and an effort will be made to give them added interest and if possible lengthen the sessions. The monthly meetings have necessarily been limited to but a few hours duration, not sufficient time to thoroughly discuss the business of the association. ## CALVIN HOUSE MURDERED NEAR RICE'S LANDING.

**Well Known Hotel Man Found Early Tuesday With Skull Crushed—Six Suspects Arrested.**

RICE'S LANDING, Oct. 19.—Calvin House, a widely known hotel man, was brutally murdered late last night or at an early hour this morning. Newton Phillips, a negro night watchman, who reported the finding of the body early today is held with five foreigners as suspects. Phillips, it is stated, tells conflicting stories of finding House.

As soon as the negro reported the finding of House, friends started to remove the injured man to his home, the House Hotel, at this place. House died before the hotel was reached. The dead hotel keeper made a trip to Brownsville yesterday on some business matters. He frequently told his banking there and when he started for his home yesterday it was known that he had a large sum of money on his person. This money, or most of it, it was stated at noon, was not found on the body. House died in his wife's arms who

## PIRATE BASEBALL FIELD CAUSE OF BREAKDOWN

**Work on It, Followed by Noisy Games and Hippodrome Causes Dis-tress to Pastor.**

Noise at Forbes Field, Pittsburgh, both while it was building and after-ward, when baseball crowds filled the park by day and Hippodrome audi-ences at night, has driven the Rev. Dr. T. F. Pershing and Mrs. Pershing on a trip abroad, for the benefit of Mrs. Pershing's health and nerves. Mr. Pershing is pastor of the Oakland Methodist Episcopal Church, Forbes and Bogart streets, a stone's throw from the grandstand to the ball field. Mr. Pershing secured a year's leave of absence and with his wife will visit the Holy Land.

"When we came to Pittsburgh two years ago," said Dr. Pershing, "Mrs. Pershing had been an invalid for four years. Trouble began when workmen started blasting rock for the founda-tions for Forbes field. Following this a number of pile drivers were put to work. Then came the erection of the grandstand. There must have been at least fifty compressed-air riv-eting machines. Following were the baseball crowds and the Hippodrome." Fireworks at the Hippodrome, says the pastor, formed the last straw. The huge bombs shook his home, adjoin-ing the church, to its foundations.

## WOMEN REVIEW OTHER GREAT WOMEN

**Interesting Gathering of the Woman's Culture Club Held Mon-day Afternoon.**

"Women as Sovereigns," was discus-sed Monday afternoon at the semi-monthly meeting of the Woman's Culture Club held in the Carnegie Free Library. There was a large gathering of club women present and the meeting was a very interesting one. Mrs. George P. Donohoe was leader. The program opened with a piano solo rendered by Miss Lambert, followed by a paper on "Elizabeth of Eng-land," read by Mrs. H. George May in the absence of Mrs. B. E. Effe. Miss Mayne first read a paper on "Catherine de' Medici."

The next number was a vocal solo well rendered by Miss Mildred Mil-lor accompanied on the piano by Miss Pearl Kock. A book review of Jan-Adams' book on "The Newer Ideas of Peace," was then given by Mrs. George P. Donohoe. Mrs. Donohoe's talk was a very fine one as well as instructive. A discussion by mem-bers of the club followed. The pro-gram on a whole was excellent, each paper showing careful preparation.

# WEST PENN TO BUILD NEW MAIN LINE TO UNIONTOWN.

Construction Will Begin at Terminus at Leisenring No. 3  
and Tap Virgin Fields.

## MAY REDUCE RUNNING TIME

Better Grades Said to Obtain Along  
New Route and Distance Will Be  
Slightly Less—May Make New  
Route the Main Line, Too.

A new trolley line connecting Connelville and Uniontown is being projected by the West Penn Railways Company and the entire completion of the trolley situation through this section may be changed. The story develops through the filing of grants issued by the Secretary of the Commonwealth permitting the road to make various extensions, these having been filed in the Register and Recorder's office at Uniontown today.

The new line, which is to be built within the next two years, will tap a virgin field for electrical development in addition to numerous prosperous works that have been long established, the line will take in three new plants that have just been completed, Butler, Phillips and Thaw.

The new line will begin at the present terminal at Leisenring No. 3. It will then run along the Mud Pike in Dunbar township to Leisenring No. 2 thence along the Laurel Hill road into North Union township past the Olivers will approach the neighborhood of Redstone Junction and thence run in to Uniontown.

The distance of the new road is about the same as the present main line through Dunbar. If anything it will be a mile or two less. Better grades it is said, will obtain on the new line and the running time may be cut down between Connelville and Uniontown.

Officials of the West Penn here were reticent when asked about the matter this morning. They admit that the new line is being contemplated and that various lines have been run. The exact route will not be determined until all the rights of way have been secured. Most of the work has been taken up quietly some months ago while others have been held for even longer time than that.

The road once planned to build a line to Brownsville from the Leisenring No. 3 terminal but this was abandoned upon the completion of the Uniontown-Brownsville route. The territory touched by the latest proposed route is more thickly populated and gives better promise of profits and successful operation.

The Secretary of the Commonwealth has also authorized two separate extensions in Uniontown here.

One of these are for the loops which will be run to afford better terminal facilities in that borough. The other three are proposed extensions for the new Uniontown-Connelville line and it is hardly likely that more than one of these will be used.

The new line will be a big help to both Connelville and Uniontown. It will open up territory that has been more or less isolated in the past and will bring business to both towns. The matter has been gone over carefully by the company's representatives who report that traffic on the line should be heavy.

It is possible that upon the completion of the new line the through cars may be diverted to this route. If the running time can be materially reduced this will be done. With two lines between Connelville and Uniontown the road will be in better shape to handle increased traffic, inasmuch as fast service and handling express should its experiments along these lines prove successful.

## A COURT DECISION FOR THE SUPERVISORS

Judge Van Swearingen Decides Appeal From Auditors of Hempfield Township, Westmoreland County

GREENSBURG, Oct. 15.—The session of the Hempfield township law suit in which certain taxpayers protested against the road supervisors' expenditure being accepted by the auditors used in the local courts last May has just been decided in favor of the supervisors by Judge J. Q. Van Swearingen of Uniontown, who heard the proceedings.

The case was based on an appeal by John J. Blank and John S. Peters from the auditors' report in settlement of the accounts of the supervisors aggregating \$40,000 for the year 1907. There were probably 300 witnesses called on the case and it attracted unusual attention. The opinion of the court is as follows:

And now, October 14, 1909, after hearing the testimony and the statements and arguments of counsel and after consideration of all the evidence and exhibits, it is ordered that all the demands of appellants for surcharges against the supervisors be and the same are refused and that the appellants' defendants in this issue pay all costs of this appeal.

The trouble originated over some road repairs. The court held that the township supervisors had the power to ratify unauthorized contracts made by individual supervisors and that township supervisors may receive compensation from the township for work on their own terms or township roads also that in the expenditure of township funds they are bound only to use good faith and the exercise of reasonable and ordinary care that they may borrow money with which to pay off a valid existing indebtedness not withstanding the provisions of the constitution about borrowing money that they may repay money advanced by one of the supervisors for machinery.

## OWNERS OF KENTUCKY COAL VISIT THE COKE REGION.

Have In Mind the Development of a Large Acreage and  
Erection of a Coke Plant.

### LIKE MITCHELL OVEN BEST

Charles E. Hellier, President of the Big Sandy Company, Spends the Day at Royal Works—Accompanied by Industrial Journal Man.

Charles E. Hellier, President of the Big Sandy Company, of Boston and Albert Phenix of Baltimore, Md., representing the Manufacturers Record of Baltimore, paid a visit to the new Royal works of W. J. Rainey Thursday and spent the day there inspecting the new Mitchell type of ovens.

The object of the visit was to see a test of Pike county, Kentucky coal, and also to observe the workings of the Mitchell type of oven. When they left Connellsville Friday morning they were high in their praise of the ovens and well satisfied with the character of the coke manufactured in them.

The two men who are interested in the new coke field which E. D. Fulton of Uniontown is promoting, and in which he is interesting a number of Fayette county men, were enthusiastic over the proposition and declare that it is one of the greatest opportunities that the industrial line has offered for sometime.

Both men were surprised at the great coke making plants and their business at this time and made minute examinations of both types of oven. The Mitchell oven appeared to their view to be the better type on account of its saving in operation, while the beehive appeared to generate the greater amount of heat.

The persons taking up the Kentucky coal along the waters of the upper Sandy in Pike county, usually called the Elkhorn region of Kentucky, intend to develop it and to start the manufacture of coke as soon as preliminary arrangements are made. The stockholders, one of the largest of whom is T. J. Mitchell, are anxious to determine what type of oven is necessary and for this reason Messrs. Hellier and Phenix visited the Connellsville coke region. Another reason for the visit was that the Manufacturers Record is devoting every effort to develop the South and is being aided by many Southern industrial concerns.

### RAILROAD PROJECTED INTO WEST VIRGINIA

Speculation Whether J. V. Thompson Will Build It From Greene County.

CLARKSBURG, Oct. 20.—Coal mining in Harrison, Marion and Barbour counties, although so extensive that it has long since attracted the attention of the world, is assuredly only in its infancy, judging from the well-authenticated reports that reach here from the centers of population and especially from manufacturing center of several other states, among which is Pittsburg, which enjoys the citizenship of leading coal land investors and coal operators, associated with Philadelphia, New York, Uniontown and Baltimore capitalists.

It is an interesting fact that in the counties of Harrison and Marion alone interests and capitalists not connected with the Consolidation Coal Company, of which the Clarksburg Fuel and Fairmont Coal companies are important parts, own a much larger acreage of coal than the two companies combined, with the independent interests thrown in for good measure.

The time is at hand, when it is the purpose to develop these vast areas of coal lands, and, as the result plans are under good headway for the construction of an important railroad intended especially for such purposes but which will naturally develop the county in many other ways. There is no longer any doubt about the declaration that another railroad will be built from Pennsylvania into West Virginia extending beyond Clarksburg. It has been talked of repeatedly, but the time was not deemed proper until rich coal areas as feeders for years to come were acquired.

The work of acquiring these lands is practically consummated. Only a few minor features of the sale of the Jarvisville field of 2,000 acres being necessary to the culmination of efforts to provide the full guarantee of a paying and enduring business of such a railroad, separate and apart from an immense general business that such a railroad would attract and keep. The

present week is expected to date the completion of the Jarvisville coal field deal, and, then every obstacle, it is stated, will have been overcome for the construction of the projected railroad.

The railroad will come up the Monongahela valley from Uniontown, Pa., where friendly and interested connections will be had, and penetrate the vast coal fields of Marion, Harrison and Barbour, as well as Jackson and Roane counties, where thousands upon thousands of acres of the finest bituminous coal in the State are situated, spurs being built to tap the remote parts of the holdings from the main line in connection with the Coal & Coke railroad, which it is understood may be sold at any moment to the new system or its allied interests, and, which in any event, will grant connections between Weston and Sutton or, perhaps, in Barbour county east of Weston. The projected road will have connection with the Kanawha & Michigan line at Charleston as an outlet to the lakes, and the Virginia railroad built by the late H. H. Rogers, will carry the product of the new coal field to tidewater.

Fully 20,000 acres of untouched coal lands in Harrison county situated near Salem, Jarvisville and along Tenmile creek will be touched by the new railroad and operated in time. Fully as many or more acres will be reached in Marion county and in the other counties mentioned there are larger acreages.

Present information is that the construction of the projected railroad will be commenced next spring and rushed to all possible speedy completion. The opportunities are so vast for successful operation of the line and the immediate marketing of this coal so inviting that a single system of railway in this section can not offer the facilities and with such a line as it is the purpose to build there will be not only increased activity in coal mining but a great relief in the transportation of the product of the farms, factories and other enterprises in the central part of the State, and truly not only will coal mining in Harrison county and other sections be given to have been in its infancy but there will be most remarkable development in other lines of industry in the history of Central West Virginia.

### BIG ORDER FOR RAILS BY WEST PENN ROAD

Placed, It is Said, for Extensions of the Lines Over in Westmoreland County.

It has been learned from reports of steel companies that the West Penn Railways Company has recently placed a big order for rails for its extension work. The company's ordinance at West Newton has passed second reading. This is on its extension from Scott Haven to the former town, Hermitage, Madison and a short line from the latter town to a point near Hunker. It has also decided to construct the line from Greensburg to New Alexandria.

Another new line this company is contemplating is from Jeannette to Export. Citizens of the former town have long been after a northern outlet. The West Penn people seem to look favorably on this project, judging from what has been learned by Glass City citizens and the latter are jubilant over the outlook.

### GRADE CROSSINGS

To Be Eliminated as Rapidly as Possible by P. R. R.

In furtherance of its policy of invariably avoiding grade crossings in all new and revised construction work, and of eliminating as rapidly as possible such crossings as are considered dangerous, the Pennsylvania railroad, in making improvements on its main line between Altoona and Pittsburg, will eliminate six crossings at highways over which there is heavy travel. Work to be done at Greensburg, includes the removal of a tunnel, a change of grade, and the elimination of one grade crossing. In view of the large number of employees of the Cambria Steel Company who use the Station street grade crossing at Johnstown, an overhead bridge is to be constructed at that point and an underpassage tunnel for pedestrians will be built just west of the passenger station.

Between Johnstown and Altoona, a distance of 37.4 miles, there will remain but three important grade crossings, and preparations are being made for the abolition of one of these. Since 1st, 1902, approximately seven and one-half years ago, 44 grade crossings have been eliminated on the Pittsburg division. With the completion of the work now authorized there will have been removed 50 crossings at grade, leaving but 76 on the main passenger line between Pittsburg and Altoona.
